## Ordering through WESPac

WESPac eCommerce Ordering allows clients to interface electronically with Office Depot BSD. During the requisition entry process, the user can select items from the Office Depot online catalog. After completing it, the requisition flows through a standard WESPac approval process. Once the requisition is fully approved and updated (posted) as a PO, the order will be submitted electronically back to Office Depot for fulfillment automatically.

Please go to this web address to obtain a WESPac ordering guide:
